Take a Stand Against the Elements with DAKOTA™

KP | BUILDING PRODUCTS
Legendary Performance and Style

SpectraShield™ Technology

Intense heat from the sun's rays can take a toll on the exterior of your home. This can cause panels to distort and fade. Darker colors present an even a bigger challenge because they absorb more of the sun's damaging rays. SpectraShield™ combines two advanced technologies:

- Advanced protection against heat distortion
- Advanced protection against fading

SpectraShield™ thermal diffusion agents disperse the sun's intense heat to resist distortion and fading, keeping your house looking beautiful year after year, decade after decade.

Bountiful COLOR

When you begin to pair these beautiful colors with Trim, Soffit and the accessories available from KP Building Products, a style truly your own will emerge.

Dakota

.042" panel thickness

Dakota Plus

.046" panel thickness

Exceptional FEATURES and BENEFITS

Dakota's proprietary blend of premium vinyl compounds, rugged construction and the best UV inhibitors in the industry ensure it can handle anything the elements bring. Built to last, our exceptional product is carefully designed and manufactured to give you the best performance possible.

Cyclone System™ Nail Hem

Our strong nail hem provides rigidity and wind resistance up to 181 mph.

Ultra-Vinyl™ UV Technology

Premium vinyl compounds and UV inhibitors are used to protect against sun damage and fading.

Self-aligning Locking System

Our panels snap together with ease while allowing for flexibility in positioning during installation.

Dakota Colors: .042" Panel Thickness

Dakota Plus Colors: .046" Panel Thickness

Where our competitors cut corners, we deliver optimal thickness for impact resistance and strength.

Low Gloss Rough Cedar Texture

To the eye and to the fingertips, our cedar wood texture is as close to real wood as you can get.

Profiles with BACKBONE

Dakota brings its impenetrable strength to four profiles. Each and every panel hangs straight and true to give any style home the distinctive look of freshly painted wood.
